Phase 1: PROPOSAL

Title: Simon's Fresh Raw Seafood

List of possible contents:

1. Homepage

    a) Webpage Highlight

    b) Main page preview

    c) Footer

2. About

    a) Information of our webpage

3. Contact us

    a) Contact Information

    b) Social Media Accounts

List of possible features:

1. Provides description and price of the raw sea food

2. Suggest what type of dish is best for the sea food

3. Gives contact information to easily order the product online

4. Location map of the store
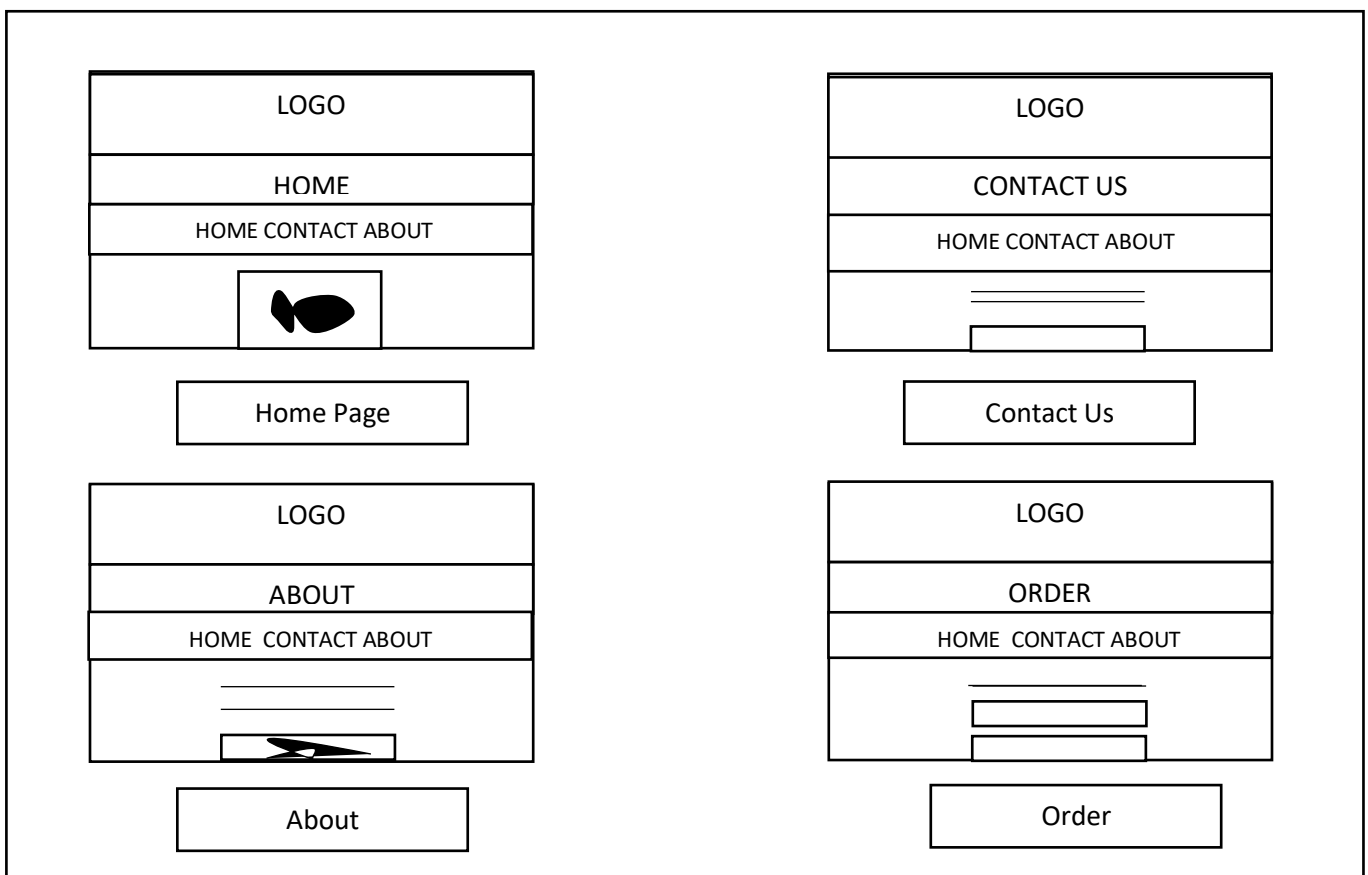

5. Take user's feedback

How HCI concepts apply in our webpage:

Our webpage gives idea to the users about our sea food products. It gives a clear data and information about sea food we sell. It also gives information about where our store located and how to contact us. By this, it helps them to easily know different types of sea food products. They can order our product with just one click hassle free and without consuming a lot of time.
